ACCOMPLISHMENTS

- ICT Exhibition from St. Mary University**
Awarded July 15, 2023
- FrontEnd Dev Libraries - freeCodeCamp**
Awarded September 14, 2024

PROFILE

I'm a skilled full-stack developer with expertise in building modern, responsive web applications. My focus is on React for the frontend, Node.js for the backend, and Next.js for server-side rendering. I enjoy creating visually appealing, functional web apps with attention to detail, and I excel in both team collaborations and independent work.

WORK EXPERIENCE

Fullstack Developer

Dan Energy

From January 2024 to April 2024

- As a full-stack developer, I developed a solar project using React.js for the frontend and Node.js with RESTful APIs for the backend, ensuring efficient solar energy tracking and monitoring.

Fullstack Developer

Final Year Project - St. Mary University

From March 2023 to July 2023

- As a full-stack developer, I focused on building REST API for backend while also contributing to the frontend for HabeshaNet, a social job boarding platform.

UI/UX Design and Frontend Developer

Atlas Computer Technology

From July 2022 to September 2022

- Web Design and Prototyping: Collaborated on website project (landing and blog pages) with Figma.

PROJECTS

- Eco-Mart: fullstack e-commerce project
- Final-year-project: social network and job boarding platform
- AddisBlog: simple blogging platform
- mesklandscaping: landscaping platform
- ATC: landing page and blog web design UI/UX design
- Dashboard: modern dashboard built with nextjs14
- YebaleSpices: spice shopping market
- Ai-image-identifier: image identifier built with gemini
- landing-page: cbe landing page clone

EDUCATION

Bsc in Computer Science

2019 - 2023

From September 2019 to July 2023 St Mary University Addis Ababa
